Apps

OnlyHandmade – E-commerce Mobile App (Flutter)

- Developed a complete e-commerce application using Flutter with a feature-first clean architecture. Implemented product listing, category filtering, search, cart, checkout, and order tracking flows. Built responsive mobile-first UI with smooth animations and custom components. Integrated REST APIs using Dio with interceptors, handled secure authentication, and added Firebase services for notifications and analytics. Focused on scalable state management using Cubit/Bloc, modular code structure, and best practices for performance and maintainability. Published on Google Play and App Store.

HR Tracking & Attendance App (Flutter)

- Developed a Flutter-based app for employee attendance, check-in/out tracking, and leave management. Integrated REST APIs, implemented Cubit/Bloc state management, and delivered a clean, responsive UI. Published on Google Play and App Store.

CXO ERP+ (Flutter)

- Built a Flutter app that enables CEOs to track key company metrics, performance indicators, and real-time reports. Implemented API integration, dashboard UI, and Cubit/Bloc state management. Published on Google Play and App Store.

ERP+ Accounting (Flutter)

- Developed an accounting app where users can load, view, and create invoices with seamless API integration. Implemented a clean, responsive Flutter UI and scalable Cubit/Bloc state management. Published on Google Play and App Store.

ERP+ Automotive (Flutter)

- Built an automotive management app for tracking cars, repairs, and service history. Implemented clean UI, API-driven data handling, and Cubit/Bloc state management. Published on Google Play and App Store.

Aqaraty ERP+ (Flutter)

- Developed a real estate application fully integrated with the ERP+ backend, enabling sales teams to manage leads, contacts, pipelines, and opportunities from anywhere. Delivered instant dashboards, real-time statistics, and a clean, responsive Flutter UI with Cubit/Bloc state management. Published on Google Play and App Store.

Alikhtiar (Flutter)

- Built an e-commerce app for an online retailer specializing in travel and safari products. Implemented product browsing, cart management, and seamless checkout with a clean Flutter UI and API integration. Published on Google Play and App Store.

ENWAN AL KHAYRAT (Flutter)

- Developed a company app for Enwan Alkhayrat, showcasing elevator and escalator services, products, and maintenance requests. Built with a responsive Flutter UI, integrated APIs for service management, and optimized for smooth user experience. Published on Google Play and App Store.

Innova Pharmacy (Flutter)

- Developed a pharmacy app to browse products, view offers, and place orders for in-branch pickup or home delivery. Built a responsive Flutter UI with API integration and Cubit/Bloc state management. Published on Google Play and App Store.
